Projects

Personal Portfolio Website | Mar 2026

• Designed and developed a responsive personal portfolio website to showcase technical skills, projects, and professional profiles.
• Focused on a clean user experience and modern presentation of work.

Daily Work Application | Jan 2026

• Built a task management application allowing users to add, update, and delete tasks.
• Improved daily productivity through a simple and practical workflow.

Python Calculator | Nov 2025

• Developed a command-line calculator in Python supporting basic arithmetic operations.
• Strengthened programming logic, condition handling, and function-based design.

EduSaga - Educational Platform (HackKRMU Hackathon) | Nov 2025

• Collaboratively developed an educational platform aimed at making learning resources more accessible.
• Contributed using HTML, CSS, JavaScript, and Node.js, while supporting overall project workflow and backend logic.

ACHIEVEMENTS & EXTRACURRICULARS

• Volleyball - National and State Level
• Javelin - District Level
• Throwball - District Level
• Athletics - 200m and 400m (DAV Nationals)

About Me

Motivated B.Tech Computer Science & Engineering (AI & ML) student with hands-on experience in full-stack web development, problem solving, and collaborative project work. Comfortable working with Python, Java, C++, JavaScript, React, and Node.js, with a strong interest in building practical digital products and learning fast in dynamic environments.
